Which doctors, hospitals, and pharmacies can I use?

PacificSource Medicare MyCare Rx 29 (HMO)

has a network of doctors, hospitals, pharmacies, and other providers. If you use the providers that are not in our network, the plan may not pay for these services. Exceptions are emergencies, urgent care, and out-of-area dialysis services.

You must generally use network pharmacies to fill your prescriptions for covered Part D drugs. Some of our network pharmacies have preferred cost-sharing. You may pay less if you use these pharmacies.

You can see our plan's provider directory on our website, www.Medicare.PacificSource.com/ Search/Provider.

You can see our plan's pharmacy directory on our website, www.Medicare.PacificSource.com/ Search/Pharmacy.

Or, call us and we will send you a copy of the provider and pharmacy directories.

What do we cover?

Like all Medicare health plans, we cover everything that Original Medicare covers—and more.

- Our plan members get <u>all</u> of the benefits covered by Original Medicare. For some of these benefits, you may pay more in our plan than you would in Original Medicare. For others, you may pay less.
- Our plan members also get more than what is covered by Original Medicare.
 Some of the extra benefits are outlined in this booklet.

We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, www.Medicare.PacificSource.com/ Search/Drug.

Or, call us and we will send you a copy of the formulary.

How will I determine my drug costs?

Our plan groups each medication into one of six "tiers." You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier and what stage of the benefit you have reached. Later in this document we discuss the benefit stages that occur: initial coverage, coverage gap, and catastrophic coverage.

Prescription Drug Benefits

Initial Coverage

You pay the following until your total yearly drug costs reach \$3,750. Total yearly drug costs are the total drug costs paid by both you and our Part D plan.

This plan has a deductible of \$300 for Tier 3, 4, and 5 drugs.

You may get your drugs at network retail pharmacies and mail order pharmacies. Cost-sharing may differ relative to the pharmacy's status as preferred or non-preferred, mail-order, Long Term Care (LTC) or home infusion, and 30 or 90 days supply.

If you reside in a long-term care facility, you pay the same as at a retail pharmacy.

You may get drugs from an out-of-network pharmacy, but may pay more than you pay at an in-network pharmacy.

Coverage Gap Stage

Most Medicare drug plans have a coverage gap (also called the "donut hole"). This means that there's a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$3,750.

After you enter the coverage gap, you pay 35% of the plan's cost for covered brand-name drugs and 44% of the plan's cost for covered generic drugs until your costs total \$5,000, which is the end of the coverage gap. Not everyone will enter the coverage gap.

Under this plan, you may pay even less for the brand and generic drugs on the formulary. Your cost varies by tier. You will need to use your formulary to locate your drug's tier.

Catastrophic Coverage Stage

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach \$5,000, you pay the greater of:

- 5% of the cost, or
- \$3.35 co-pay for generic (including brand drugs treated as generic) and an \$8.35 co-pay for all other drugs.
